Who is CaterCurator for?

We partner with top food producers, from locally owned-operated restaurants and food trucks to franchisees and specialist caterers. We work with those who are masters of their cuisine and popular with locals. We work with business owners who are passionate about their food and are dedicated to delivering the best possible experience to customers, just as we are.

Is there any cost to partner with CaterCurator?

No Sign-Up Fee. No Contract.

It's completely free to sign up as a caterer. There are no on-boarding or off-boarding costs associated with being on the platform. You never have to worry about being locked into a contract. Send us your menu and we'll do the rest. All we ask is a small commission on the orders you receive, so we only make money when you do.

How does the arrangement work?

We will market and sell your catering service to potential customers

Our sales team will sell your food across the city. From finding people who need catering, getting them to place an order, and keeping them happy and coming back for more, CaterCurator handles all aspects of the sales process so you can focus on the food and delivery. You'll also get your dedicated webpage to promote your business and menu. We'll even provide valuable data and marketing support to help develop and grow your business.

We will handle Customer Communications so you can focus on the rest of your business

Customers will have queries, issues, and changes in orders. Let CaterCurator handle and resolve such queries and save up to 20% on time and costs by not dealing directly with them. Redirect all customers to us if they contact you directly for orders placed through us. You should only accept order changes from CaterCurator. This ensures that the amount that customers pay and that you receive is correct.

You will match your CaterCurator Menu Prices with your In-Store Catering Prices

We guarantee customers that your menu prices on CaterCurator always match your prices in-store, over the phone, or through any other website or online channel for catering orders (except limited-time promotional offers). You will promptly contact us if your prices change so we can keep them up to date.

You will promptly Accept (or Reject) Orders within 30 minutes

We will notify you about the new orders via email, text message, or push notifications. You will promptly accept or reject all orders within 30 minutes of receipt during business hours, or if an order is received outside business hours then 30 minutes after the start of your normal business hours the following day, via your merchant portal or web URL shared via email/text.

You will prepare and deliver your food (get it ready for pick-up) on time

All orders have the option to download and print out for your staff to follow easily. Order and delivery forms clearly state menu, headcount, and delivery time and logistics. With one central point of contact, you'll never receive unclear direction or mixed signals. You will deliver orders (or in case of take-out/delivery through CaterCurator, keep the orders ready for pick-up) no more than 15 minutes before or 5 minutes after the delivery time.

What is our fee structure?

We only make money when you do! A percentage is deducted from each order payout, which covers our commission, customer service, marketing, and credit card processing fees. The total amount you receive equals the amount paid by the customer less commission and credit card processing fee:

| Services | Commission | Credit Card Fee |
|------------------------------------|------------|-----------------|
| CaterCurator Marketplace | 10% | 2.75% |
| Get Your Own Website Catering Link | 0% | 2.75% |

- Commission is charged on the subtotal + delivery fee (excludes tips or taxes)
- Credit card processing fee is charged on total transaction amount (includes all charges)
 - You will receive 100% of tips.
- Sales Tax : In all states where CaterCurator orders are taxable, we will collect taxes. In states where marketplace facilitators are required to remit taxes, we will remit taxes on your behalf and our payments to you will not include these taxes. In states where marketplace facilitators are not required to remit taxes, our payments to you will include these taxes and you will be responsible for remitting all state and locally administered taxes correctly and promptly to the appropriate agencies.

When do you get paid?

CaterCurator will process payments twice a month (on 5th and 20th) via direct deposit or check. For orders fulfilled between 1st to 15th, payment will be made on the 20th and for orders fulfilled between 16th to end of the month, payment will be made on the 5th of the following month. We will send you a consolidated payment report of all the orders being processed during the pay period, to make sure we're providing you with the correct total.
